

BRÜDER

EXP-10

THE ALL-NEW BRUDER EXP-10 ELEVATING LUXURY OFF-GRID ADVENTURE

The Bruder EXP-10 is more than just a trailer; it's the ultimate platform for off-grid exploration, merging luxury, strength, and unmatched capability. Redefine adventure with the all new Bruder EXP-10.

2025 marks the dawn of a new era in off-grid exploration. The all-new EXP-10 stands in a category all of its own. Our most powerful expedition trailer yet, merges uncompromising strength with refined elegance to deliver unmatched off-grid capability.

Designed with over 2,000W of solar power and a next-generation 48V electrical system, the EXP-10 is available in two layouts, tailored for both families and couples. Travel beyond the edge of the map, embracing luxury and rugged reliability like never before.

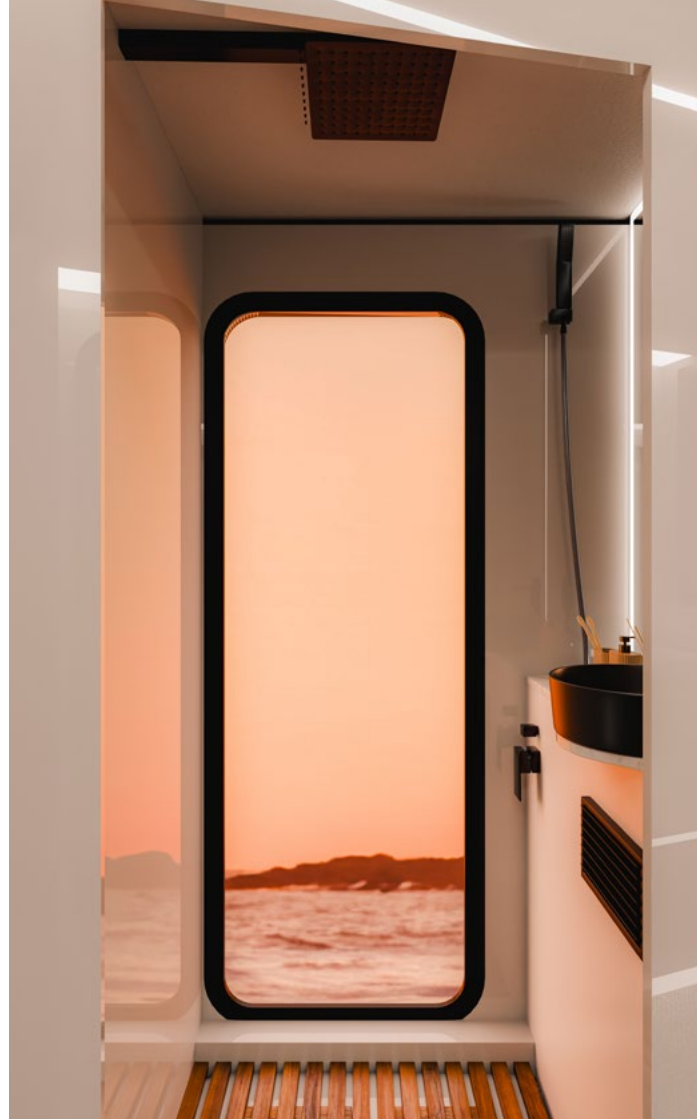

CHOOSE YOUR PERFECT LAYOUT

Couples Layout: This layout includes a lounge area that converts into a comfortable sleeping space, offering flexibility and functionality for couples looking to maximise space.

Family/Bunks Layout: Perfect for family adventurers, this layout features permanent bunk beds for children, giving everyone a designated, cozy space to unwind after a day of exploring.

HEATED DRYING ROOM

The EXP-10 features a heated shower room that doubles as a drying space, ideal for keeping gear and clothing dry after long days in the wild. Efficient heating and durable materials ensure comfort and practicality, regardless of the environment.

DIRECT ACCESS BATHROOM

Our unique double-door system provides direct access to the bathroom, which doubles as a drying and wet room. In snowy or wet conditions, you can step directly into this space to clean up, store wet clothing, and keep your main living area pristine.

This entry point also serves as a climate barrier—ensuring that extreme cold or heat stays outside, enhancing the efficiency of your heating or air conditioning by keeping the main cabin sealed from outdoor elements.

CHILD ZONE & INTELLIGENT STORAGE

For family adventurers, the EXP-10 offers a dedicated child zone—a space for play, rest, and sleep, with integrated storage for toys, clothes, and essentials. Every detail is thoughtfully crafted with families in mind, ensuring that little ones have a functional, organized space while allowing easy access to everything they need for comfort and a sense of home.

EXPANSIVE COMFORT & COMPACT DESIGN

The EXP-10 strikes the perfect balance between size and comfort—small enough for nimble handling on tough and narrow tracks, yet spacious enough to provide ultimate comfort for families or couples. Whether traversing remote terrain or enjoying a weekend getaway, the EXP-10 ensures no compromise on luxury or space.

BIG ON STORAGE FOR OFF-GRID ADVENTURES

Easily accessible external storage offers ample space for all your essentials, extra bedding, adventure gear, and more. Thoughtfully designed modular compartments keep everything impeccably organized, elevating your travel experience with a touch of refinement. This generously sized area is so versatile that it can even accommodate an optional 95L/25gal fridge, ideal for extended expeditions.

THE MOST POWERFUL EXPEDITION TRAILER IN THE WORLD

Experience unparalleled off-grid luxury with the EXP-10. Featuring over 2,000W of solar power and a 48V lithium battery system with over 30kWh of capacity, the EXP-10 is designed to keep you powered indefinitely, even in the most remote destinations. Dual air conditioners provide ample cooling power, ensuring comfort in the hottest climates. Bruder's cutting-edge 48V electrical system delivers exceptional efficiency compared to traditional 12V systems, marking a significant advancement in off-grid technology.

INTEGRATED TECHNOLOGY

Effortlessly access all your essentials with Bruder's advanced technology. Control suspension, climate settings, and digital switches from a single intuitive interface, all while staying connected via your phone or tablet.

BUILT FOR TRUE OFF-GRID LIVING

With a standard 340L/89gal internal water capacity and remote water pickup that allow you to draw water directly from a stream or river, the EXP-10 is built for complete self-sufficiency away from the crowds. The water storage system is engineered to prevent freezing or exposure to extreme heat, providing reliable access to water in any environment. For those requiring extra storage or a custom system for generating drinking water, our team is here to assist

PATENTED BRUDER SUSPENSION

The EXP-10 features our renowned and patented suspension system, designed for rugged off-road performance. This system allows you to traverse tough terrain with incomparable comfort and control. Tested across six continents in the hottest and coldest climates, the Bruder suspension is trusted by defence, commercial and humanitarian organisations. With the EXP-10, you get a journey defined by comfort, reliability, and capability.

UNMATCHED KITCHEN & BEDROOM COMFORT

The EXP-10 kitchen seamlessly blends home comforts with off-grid living. A spacious countertop, induction cooktop, high-efficiency fridge/freezer. Handcrafted from premium materials, it offers a refined cooking experience, whether under the stars or on crisp mornings.

The EXP-10 redefines off-grid sophistication, ensuring rest and rejuvenation wherever your journey takes you. The bedroom is a haven of luxury, with panoramic windows that invites natural light into the spacious interior. Thoughtfully designed for relaxation, it features reading lights, superior insulation and material choices for year-round comfort.
