

BRUDER 

ADX-21

ADX-21

The ADX-21 seamlessly blends strength, luxury and performance to deliver a full-size off-road caravan without compromise. Constructed with a fully composite body and exterior protective wrap, the ADX-21 has a starting weight of approximately 2840kg. Featuring Bruder's world-renowned patented suspension, it ensures a smooth and stable towing experience, redefining off-road travel with an unparalleled combination of toughness and luxury.

Reliable Power

The ADX-21 is engineered for extended off-grid adventures, delivering industry-leading 12V performance. Equipped with globally recognised and supported Victron electrical systems, it features a 3000VA inverter, 1600W of a 1200Ah lithium battery system (900Ah solar, standard) and Starlink Gen 3 for seamless global connectivity.

The image shows the interior of a white caravan. On the left, a skylight is open, showing a blue sky with light clouds. Below it, a bed is made with a grey and white patterned duvet and two pillows with geometric patterns. To the right of the bed is a white storage cabinet with a black handle. Further right, a large window looks out onto a beach at sunset, with waves and a tree visible. Below the window is a white bench or storage unit. The overall atmosphere is bright and airy.

Storage and Flexibility

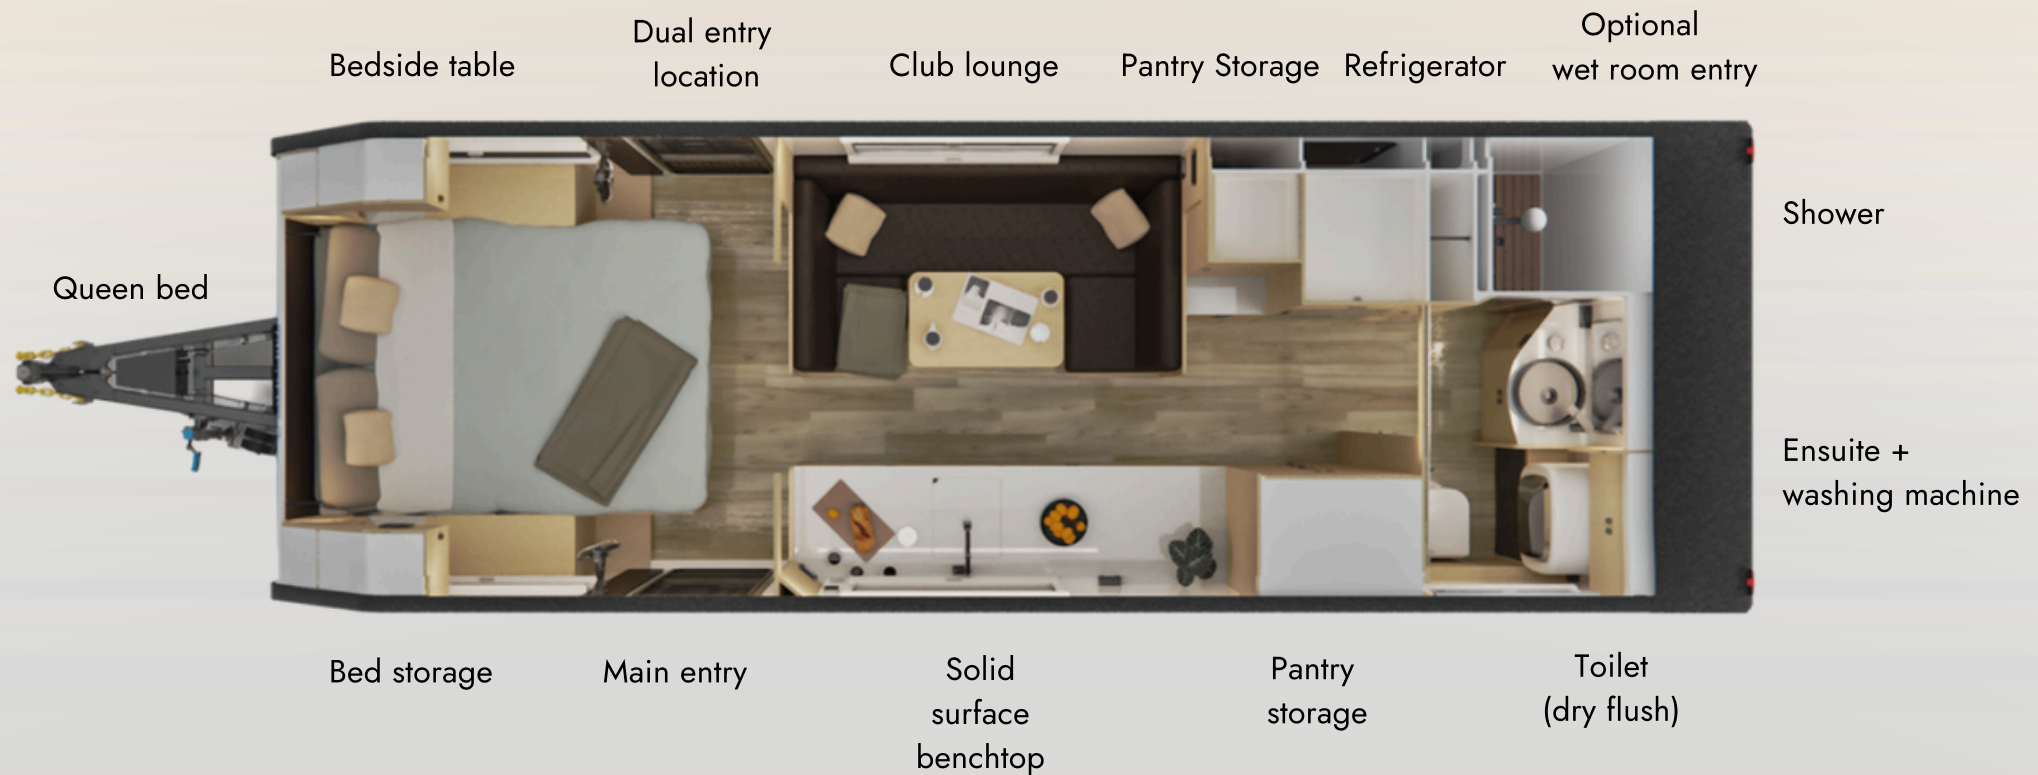

Designed for ultimate versatility, the ADX-21 offers thoughtfully crafted layouts to suit both couples and families. The family model includes up to three bunk beds, while every layout maximises the 21-foot interior for comfort and practicality.

Bruder Suspension

The ADX-21 is equipped with Bruder's renowned suspension system - trusted by the Australian Defence Force (ADF) for specialised operations. Featuring 12 inches of adjustable suspension travel, the system effortlessly adapts to varying terrains, from highways to rugged off-road landscapes. Front-mounted recovery tracks provide immediate self-recovery capability in extreme terrain. Its unique load-sharing and non-load-sharing modes provide optimal stability and handling, while the ability to tow on two or three wheels adds unmatched flexibility.

Seamless Living

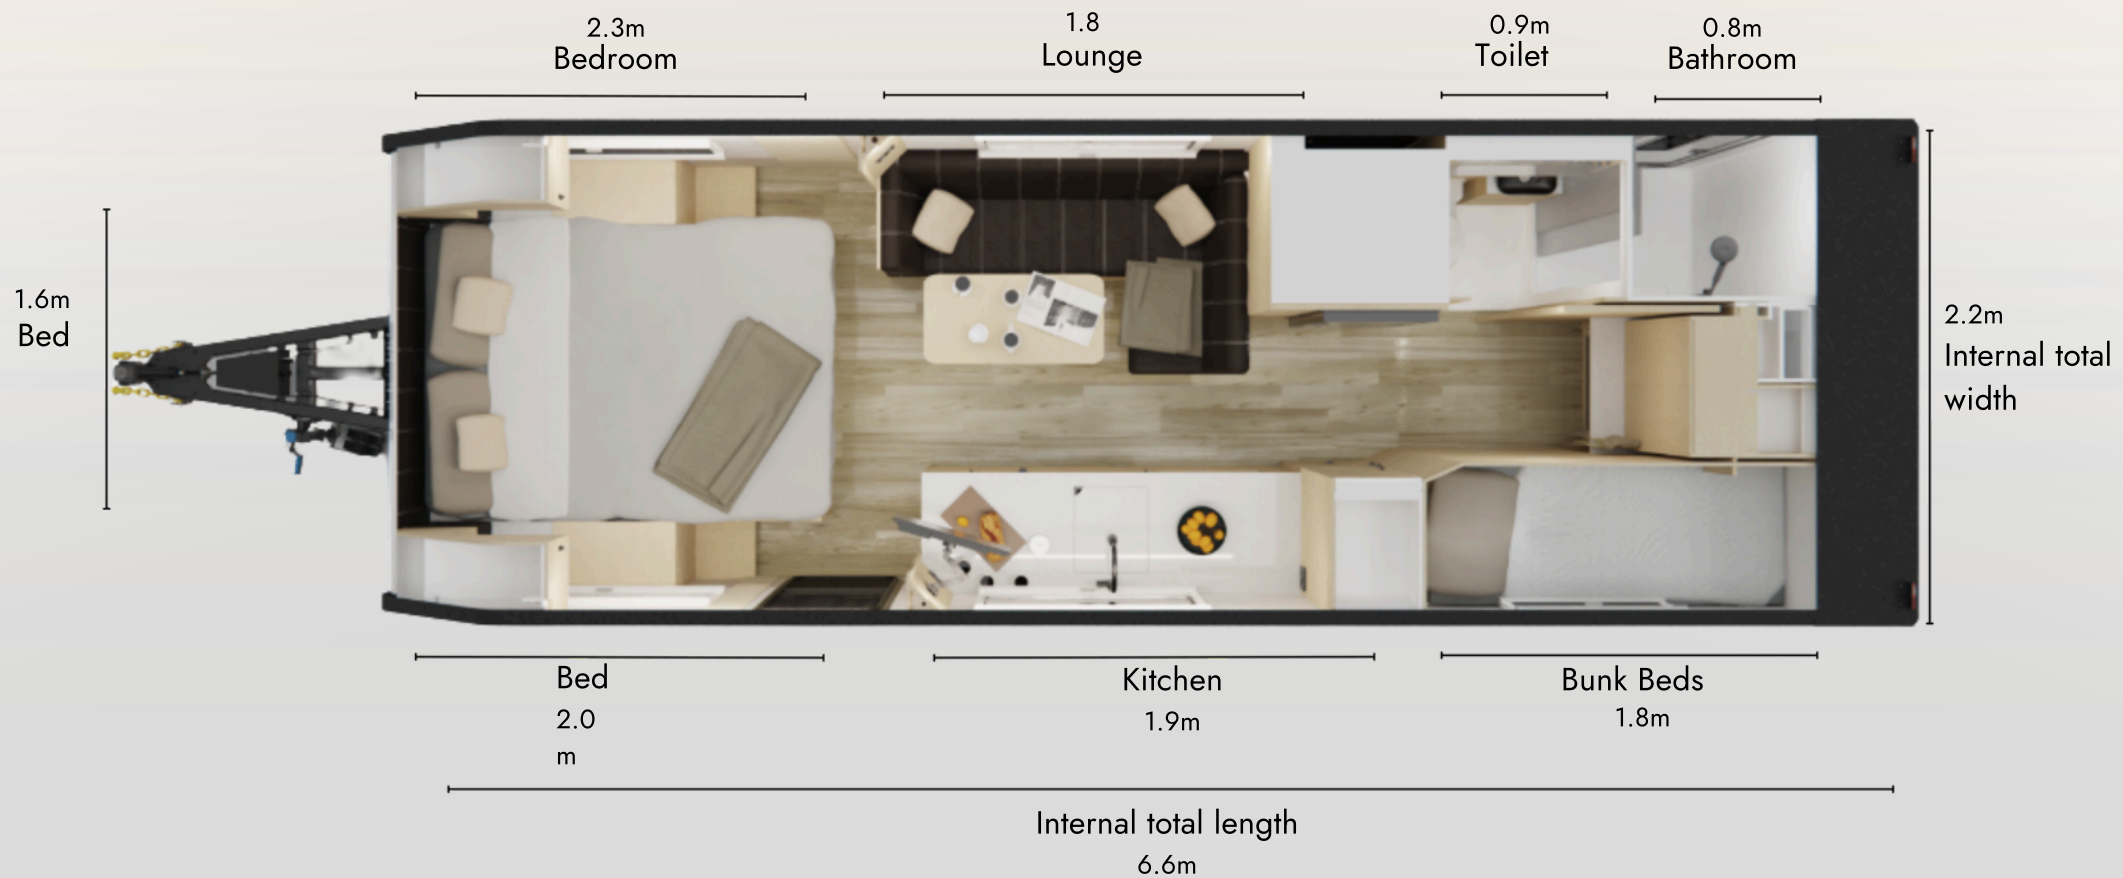

Forget climbing double or triple steps, the ADX-21's suspension lowers for effortless entry, redefining accessibility. Inside, panoramic windows connect you to the outdoors, showcasing a premium interior featuring real leather upholstery (Ambassador Black standard, with 4 colour options) and herringbone light beach oak flooring. The ensuite is equally refined, featuring a black ceramic round basin and a full-height shower with a black door frame, mirrored glass, and a timber shower floor board. Built with a fully composite body for exceptional strength and thermal efficiency, every detail reflects Bruder's unwavering commitment to luxury and adventure.

Storage and Flexibility

Clever compartments and large storage areas ensure you have room for all of your essentials, from clothing to outdoor equipment. The family layout offers additional storage, while the exterior storage options allow easy access to your gear without disrupting the interior space, with over 1500L of storage in the front through-boot alone. Complemented by a 1200mm front slide-out storage tray on the LHS.
